Figure 1 - Registration and Login Page

For users new to our online applications system

Only registered users of the system can apply for grants. Please click and follow the on-screen instructions to complete the registration process.

You may find the following notes useful:

- You will use the email address you register with to identify yourself to the system when logging in.
- The system will use this email address for all correspondence, so it's a good idea to choose an address you use regularly.
- When you register, an email will be sent to you to allow you to confirm the registration and log in for the first time.
- Don't worry if you move to a new email address in the future - you can change your registered CCGT email address if you need to.
- If you're a grant holder, or if you've previously contributed to an application or review, your email address may already be registered. The system will detect this automatically and will invite you to log in without needing to re-register.
- The system allows you to store the answers to security questions to assist the secure retrieval of your password if you ever forget it.

Forgotten password

If you forget your password, you click the **Forgotten Password?** link on the Registration and Login Page, and ask for a replacement password to be sent to you by email. This replacement password gives temporary access to the system, during which time you will be asked to provide a new, permanent password.

Account lock out

Persistent use of an incorrect password will lock your account; this is to protect you from attempts to access your data by a third party. If this happens you can request a new password via the 'Forgotten password' function.

The home page is your starting point to create applications, or to update your details, including your professional and academic CV.

It is also where you, as a grant holder, can manage your grants, and as reviewer can participate in the review process.

Creating and completing a grant application

An overview of the creation and preparation of a grant application

1. The Lead Applicant must be the one who creates the application, but it can be jointly completed by the Lead Applicant and any co-applicants.
2. Co-applicants may be added to the application. When a co-applicant is added, CCGT will automatically email them to invite their participation. Co-applicants can decide whether to accept their inclusion, and later to consent to the application being submitted jointly in their name.
3. Applicants and co-applicants can manage their CVs in 'My Details'. The CVs are automatically included in the application submission.
4. When the application form is complete it must be validated prior to submission. This will highlight any omissions in the form, and allow these omissions to be corrected.
5. Signatories must be selected as part of the application. Their approval is necessary to allow the application to be submitted.
6. When the application is submitted for approval, emails are sent to the signatories (each in turn where there is more than one) informing them that their approval is requested. The Lead Applicant may follow the progress of the approval process on the grant summary page.
7. When all signatories have approved the application, it will be sent automatically to be considered for funding, and a confirmation email will be sent to the Lead Applicant.

Completing a grant application

The screenshot displays the 'Online Grant Applications' portal for 'CC Grant Tracker'. The page title is 'Ref: 1575'. A left-hand navigation menu lists various sections: Introduction, Project Summary (selected), Project Details, Additional Project Detail, Publications, Clinical Information, Lay Summary, Lead Applicant, Lead Applicant CV, Proposed Supervisor(s), Advisers, Signatories, Scientific References, Grant Information, ARC Grants, Finance, Full economic costs, Time Allocation, Ethical Approval, Animal Ethics, Research students, Referee(s), Attachments, Disease Category, Research Focus, Research Category, Methods Used, and End. Below the menu are buttons for 'Validate Form', 'Save', and 'Close'. The main content area is titled 'Project Summary' and includes navigation buttons '< Prev', 'Next >', and 'Help'. It contains instructions to complete fields for a project summary, a text area for the scientific abstract with a word count, and form fields for Institution (CC Technology), Department (Software), Address (375 West George Street), Phone Number (0141 5575544), Proposed Start Date, and Proposed Duration (60 months). At the bottom, there are four input fields for key words and another set of navigation buttons '< Prev', 'Next >', and 'Help'.

Figure 4 - Completing an application

- The pages of the application form are listed as a menu down the left-hand side of the screen. To complete the application all pages must be filled in.
- You should find the application form no more difficult to complete than a paper form - and if you're already used to electronic forms, you'll probably find it much easier.
- Each page has a **Help** button, at the top and bottom right of the page.
- You can move from page to page using the **< Prev** and **Next >** buttons, or using the menu on the left-hand side.
- Remember to **Save** your work. You will be prompted to save your work if you leave the screen but it is always good practice to save work often in case of computer problems.
- You can save and return to the application form as often as you like.
- The system will prevent your co-applicants accessing your application at the same time as you. This stops applicants and co-applicants making changes to the same part of the application at the same time and inadvertently overwriting each other's work.

Figure 5 - Managing an application

If you select an application from the 'My Applications' page, you can manage it, as shown above.

The boxes on the right enable you to:

- **Edit the application** on return visits
- **View the application as a PDF.** This creates a form with your latest edits for you to review or to create a paper copy. The PDF features a 'Working Copy' watermark, which disappears after the application is successfully submitted.
- **Validate** that your application is complete for submission.
- **Submit the application** for approval - this button is only available when validation has been successfully completed.
- **Delete the application** if you wish to. **Note that this is an irreversible action;** the application cannot be recovered after deletion.

The menu items on the left:

- **Change history** - shows the changes made to the application form, this can be useful for the review of changes made by collaborators.
- **Journal** - is a notepad function allowing collaborators to leave messages and/or attachments for each other.
- **Sign-off status** - reports on the progress of the sign-off process by each of the *signatories*. (See **Co-applicants and signatories** below for more information)

Figure 6 - Application Statuses in ‘My Applications’

All grant applications, and their statuses, are listed on the ‘My Applications’ section of the system.

Submission and beyond

1. After successful validation the lead applicant may the application. It will then be routed to each of the signatories for their approval.
2. If a signatory rejects the application the lead applicant will be notified, along with any feedback the signatory has supplied.
3. The application can then be re-submitted; it will be returned to the signatory who made the rejection and continues through the approval process as before.
4. On completion of the final approval:
 - A grant application number is assigned to the application.
 - The application automatically enters the process of being considered for funding, which begins after the grant round closes.

Feedback from peer review and the funding decision

Following the closing date of the grant round, submitted and approved applications for that round will be peer reviewed to decide their suitability for funding, and lead applicants will be informed of the outcome of this process in due course.

Reviews and panel meetings

You can manage your reviews and panel meetings directly from within CCGT, in the 'My Reviews' section.

Peer reviews and panel reviews

If you have agreed to participate in reviews generally for an organisation, you will be sent details about the review(s) by email.

Carrying out a review

As a reviewer, you will be asked to examine the application in detail, and give your assessment of the application's potential. In the example in **Figure 8**, the reviewer is being asked in particular to: provide remarks; give a recommendation; and suggest the names of two independent referees.

Please give your comments for this grant application. The application form can be viewed by clicking the View/Download Application link below.
